**17 | THE ULTIMATE FORMULATION**

The secret of ECSTAR's outstanding performance is the optimal blend of oils, which is created through both theoretical and empirical analysis of Suzuki motorcycle engines from the stage of designing. As ECSTAR is designed to match Suzuki engines perfectly, not only is the viscosity optimal and outstanding, but also other parameters such as wear protection achieve high value.

Our product line-up consists of 3 grades to all Suzuki users: R9000 is designed for those who desire high performance, R5000 for those who want to save money and R7000 for those who wish to keep balance on performance and costs.

Please ask your Suzuki dealer for more details.

Suzuki accessories are designed specifically for Suzuki vehicles and are subject to the same quality standards as the vehicles themselves. We would like to draw your specific attention to the fact that only Suzuki original accessories are tested and approved by Suzuki. The requirements they have to meet are set out in the relevant manuals. Under certain circumstances, the installation and/or usage of other accessory parts may therefore have a negative impact on the characteristics of your vehicle as set out in the design specifications, thereby impairing riding safety. Suzuki cannot under any circumstances be made liable for damage occurring from the use of any accessory that is not a Suzuki original accessory. Please always check and ensure that all requirements in your country are fulfilled.

Subject to engineering and design modifications without prior notice. Please consult the current price list for details of accessory prices.

**WVTA – The EC Whole Vehicle Type-Approval (EC WVTA) is a mandatory system that applies to passenger cars and motorcycles. The WVTA ensures that these vehicles (and their trailers) comply with all the relevant EC directives on safety and environmental requirements. It also confirms that adequate arrangements for ensuring conformity of production have been taken by the manufacturer and, where necessary, testing has been undertaken.**

**WVTA's and type-approvals of individual systems, components and separate technical units are communicated amongst member states. In effect, any item included in the WVTA does not require additional certification.**
